

HONG KONG PARTNERS LP FUND PERFORMANCE FACT SHEET AS OF JUN 2012

South Ocean Management has enjoyed superior results, focusing on China - centric growth stocks in Hong Kong. Our formula of investing in companies with lower P/E ratios to expected growth, solid balance sheets, Chinese owned/managed companies, substantially lowers risks in this part of the world. We screen for potential investments in businesses with high ROCs and low price to cash flow share prices.

| 3. China Metal Recycling | Metal recycling |
| 4. Asian Citrus | Largest orange plantation owner and operator in the China |
| 5. Shenzhou Int'l | The largest knitwear for sportswear |

HONG KONG PARTNER L.P. FUND STRATEGY

What we do: We invest in niche, Hong Kong-listed companies that generate profits from operations on mainland China. Comparable companies listed in China generally have higher multiples and different accounting standards. We invest in transparent organizations that have dynamic business models, driven by honest, committed management we have met and know.

Small/mid caps in Hong Kong tend to be under-researched and under-owned relative to large caps. We concentrate our portfolios in 15-30 positions, usually with no more than 20% in one stock. Our open mandate allows for short selling, leverage and derivatives, but no activity in these trading formats to date. We aren't trying to 'hug' an index with our 3-5 year time horizons, but have retreated to cash when there are few bargains available.

The South Ocean advantage: South Ocean has been located in Hong Kong for 20 years. We believe hands-on, active management (not peripheral analysis), is paramount to succeeding in this volatile market. We make frequent visits to the Hong Kong offices and management of all our holdings, also travelling to their business operations in China. This additional effort is critical for maximizing returns in our portfolios and is a major differentiating factor of South Ocean Management, Ltd.

How to invest: Delaware LP has been open to US and non-US investors since 1993. A Cayman Island feeder fund was established in 2007 to accommodate offshore, non-US clients. Both are administered by Apex Ltd and custody by DBS Bank Ltd.
