## HONG KONG PARTNERS L.P. FUND STRATEGY

South Ocean Management has focused on China-centric growth stocks in Hong Kong since our 1992 founding. Our formula is long-term investing in undervalued stocks using an intrinsic value methodology similar to Warren Buffett.

Our proprietary system demands that we incorporate a wide margin of safety when buying Chinese owned/managed companies, which helps lower risks in this part of the world.

We screen and seek 20% annualized returns.

Overview:

Our core investment strategy is to focus on China growth.

What we do:

We invest in Hong Kong-listed companies that generate profits from operations on mainland China.

We avoid investing directly in China as comparable companies listed there have different accounting standards and agendas. We invest in companies that are transparent, with dynamic business models, in the more level playing fields of Hong Kong.

Small/mid caps in Hong Kong tend to be under-researched and under-owned relative to large caps. We concentrate our portfolios in 15-30 positions, usually with no more than 20% in one stock.

Our open mandate allows for short selling, leverage and derivatives, but no activity in these trading formats to-date. We aren't trying to 'hug' an index with our 3-5 year time horizons, but have retreated to cash when there are few bargains available.

The South Ocean advantage:

South Ocean has been located in Hong Kong since 1992. We believe hands-on, active management (not peripheral analysis), is paramount to success in this volatile market.

We make frequent visits to the Hong Kong offices and management of all our holdings, often travelling to their business operations in China. This additional effort is critical for maximizing returns in our portfolios and is a major differentiating factor of South Ocean Management Ltd investment

### **Fund Details**

**Advisory Company:**

South Ocean Management Ltd

**Management Company:**

South Ocean Management Ltd

**Fund Size:** US\$10.85 mn

**Inception Date:** Jul-1993

**Domicile:**

Delaware and Cayman Islands

**Base Currency:** USD

**Leverage:** No

**Hurdle Rate:** No

**High Water Mark:** Yes

**Minimum Investment Size:**

US\$150,000 Dealing Monthly

**Redemption Notification**

**Period:** 1 month written

**Management Fee:** (% pa) 1.5

**Performance Fee:** (% pa) 15.0

**Administrator:** APEX

**Auditor:**

Deloitte Touche Tohmatsu
